

Breach vs. Breach

The words breach and breach are pronounced the same way but they have different meanings and uses. As with other homophones, this causes confusion among writers and sometimes results to mix-ups. This post will help you determines these differences and enable you to use these terms more accurately in your writing.

The word breach can be used in different ways but it is most commonly used as a noun pertaining to “infraction or violation of a law, obligation, tie, or standard,” “a broken, ruptured, or torn condition or area,” or “a break in accustomed friendly relations.”
