

As with other homophones, the words threw, through, and thru may sound alike but have different meanings and uses. Threw and through have very distinct meanings while thru is generally used only in informal writing.

The term threw is the simple past tense of the verb throw meaning “to propel something with force through the air by a movement of the arm and hand.”

“Young woman, 26, ‘threw boiling water over her boyfriend’s pal during a Valentine’s Day bust-up’”
